

MOS Player, offline content player

Your organisation wants to efficiently train your mobile teams that have limited access to the Internet.

MOS Player meets the needs of learners who wish to follow their eLearning courses in offline mode.

Ease of use

Get trained and learn anytime, anywhere at your own pace.

Simplicity

Your learners download their courses from the MOS Chorus LMS platform and follow them offline.

Synchronisation

Progress and results are synchronised with MOS Chorus in one click, once the connection to Internet is back.

Flexibility

Start and stop your training anytime. The course will start where it was left off.

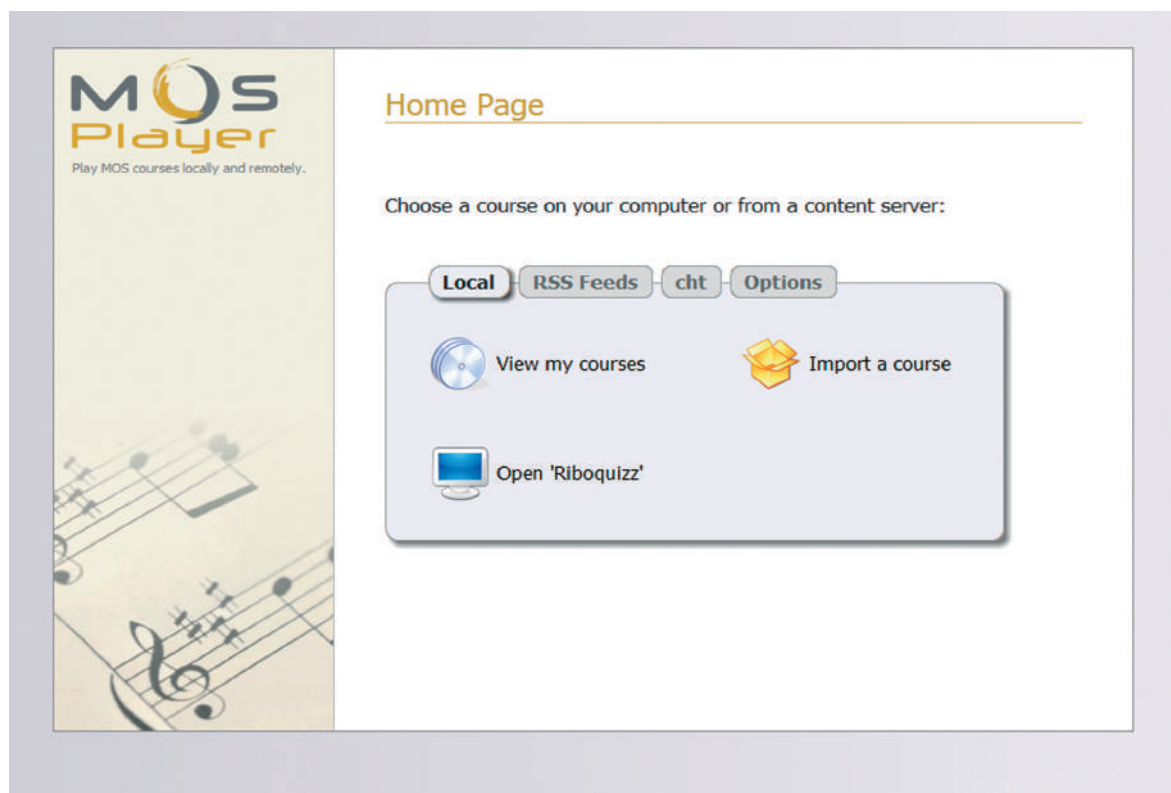

Smart Learning Solutions

MOS - MindOnSite SA | Avenue de la Gare 10 | CH 1003 Lausanne
+41 21 331 22 80 | www.mindonsite.com

Solution adapted to nomadic users

With MOS Player, your learners can:

- Configure access to the MOS Chorus LMS platform provided by your company or the connection to a content server
- Display the content list on MOS Chorus and locally in MOS Player
- Download courses from the LMS platform and import them locally in MOS Player
- Play courses without Internet connection, the progress being saved locally
- Synchronise results with the LMS platform or the content server once back on Internet, in just one click
- Read the latest announcements
- Consult the RSS feeds and manage subscriptions

Technical configuration

Windows XP / Vista / 7
Internet Explorer 7+
Administrator rights at installation

Delivered with the MOS Chorus LMS platform and with a start-up assistance guide

MOS Player is an executable programme (.exe) that is locally installed in your computer.
