

Press release

Lausanne, Switzerland – 02 Nov. 2015

TrainingIndustry.com announces Gamification Companies Watch List.

TrainingIndustry.com just announced the 2015 **Gamification Companies Watch List** as part of its mission to continually monitor the training marketplace for the best providers of gamification services/technologies in support of corporate learning and development.

MOS - MindOnSite is proud to be part of the 2015 Watch List this year again!

Gamification is a key element to learner engagement and a priority on both learning portal and content for MOS – MindOnSite. Its MOS Chorus LMS platform is fully adaptable in terms of graphics and features: the user learning portal offers a graphically appealing and engaging learning environment and integrates social and game-based experience.

On the content side, other than integrating serious games from partner editors, MOS – MindOnSite launched this year a new mobile app developed in partnership with [Teach On Mars](#). [Pocket Impulse](#) offers a new interactive mobile learning experience. Users can learn, train and practice anytime anywhere on their smartphone; they test their knowledge, practice, answer quizzes, collect points, reach levels and learn in a fun way.

“We are excited to announce our second annual Gamification Companies Watch List which highlights returning and emerging organizations in the gamification space,” said Ken Taylor, President, Training Industry, Inc. *“These companies are some of the best at creating engaging training through gamification products and services and we will continue to see them grow and positively impact this segment.”*

“We are continuing to see many highly effective entrants into the gamification segment and the 2015 Gamification Companies Watch List is no exception,” said Doug Harward, Chief Executive Officer, Training Industry, Inc. *“Any of these organizations can help enhance your training programs through implementing their gamification products and services.”*
