TrainingIndustry.com announces its 2016 "Top 20 Authoring Tool Companies" list

As part of its mission to continually monitor and identify the best providers of training services and technologies, TrainingIndustry.com announces its 2016 "**Top 20 Authoring Tool Companies**".

Our MOS Chorus authoring tool has been selected for the third year in a row!

Our MOS Chorus platform is a learning management (LMS) and an authoring tool (LCMS) solution in one. It offers all the features and services to create learning content simply and efficiently: courses, modules, assessments, documents, multimedia… The learning content is engaging and interactive. It can be created in a collaborative way and in offline mode. To know more about MOS Chorus authoring tool.

"This year's list of Top Authoring Tools companies offer a diverse set of tools and services to help meet any organization's training needs," said Ken Taylor, president, Training Industry, Inc. *"By incorporating interactive content, assessments and many other critical features, organizations can craft engaging and effective content using these authoring tools".*

"*Despite continued consolidation in the Authoring Tools segment in 2015, this year's Top Authoring Tools companies remain the key players in this market and provide their users with technology-rich, engaging tools and features*", said Doug Harward, CEO of Training Industry, Inc
